

Hi. What's up everyone? I'm going into the 7th grade and I'm one of the daughters of the man who made this website. I'm going to ask him about making a way we can chat with eachother so we can talk. Wouldn't that be cool? You wouldn't be able to see the person you are talking to. You could only type what you want to say. I'll edit this profile again to tell you his answer.
